

Dear All,

Thanks for your strong support for over 1 year.

I am really appreciated for your safety operation.

I know well, we Hitachi demand too many things to keep safety but you cooperated very well to meet our request.

Thank you again.

I hope we will work in near future.

We have comprehensive network in Europe / incl. 100% subsidiary ESA in East Europe, Mars in Turkey.

If you have any demand for warehouse, forwarding, heavy cargo, please always contact me.

I am willing to support you.

On the other hand, in case any business opportunity in Greek, I will always appoint you as our partner. (even if you don't want to)

See you & thanks again & again,

Kinya Takahashi
