Letter of Recommendation

With this letter, METKA SA, wishes to recognize that the service received from J.E.COSMATOS & CO during various shipments of heavy lift equipment was impeccable.

The major aspect of our business with them involved heavy trucking, customs clearance and stuffing/lashing on mafi trailers.

In all our shipments, the commodity handled was a main frame MP1000 with shaft – crusher machine parts used in the mining industry.

Dimensions: 420 x 420 x 330 cms

Weight: 43,200 kgs

J.E.Cosmatos & Co has always managed to cope with all unforeseen factors, such as strikes, in the most efficient way.

All sub-contractors chosen by J.E.Cosmatos & Co, e.g. hauliers, have always provided a good, secure and timely service.

It is certainly clear that the long experience and the full diversification that the company has, gives them the necessary confidence to perform every business as close to perfection as possible.

Well done!

Yours Sincerely,

Kate Donta
Logistics and Raw Material Purchasing Director
